EXECUTIVE SUMMARY

A. INTRODUCTION

3Gi CNYIP Inc. (3Gi) is the leading private entity responsible for the development of the Central New York Inland Port (CNYIP), which will offer increased opportunities for importing and exporting by providing infrastructure for dedicated international intermodal service to and from the Port Authority of New York and New Jersey (PANYNJ). By increasing the amount of materials that are transported via rail relative to the amount transported by truck, the project will contribute to more efficient use of energy and reduction in greenhouse gas emissions while enhancing the import/export markets in NYS. 3Gi's CNYIP will be integrated into the existing Dewitt Rail Yard located south of Kirkville Road between Girden Road and Fremont Road in the Town of Manlius. The Dewitt Rail Yard has been operated by CSX since 1857 and is located along a route that extends from Boston to Cleveland. The rail yard and subject site is on a Class 1 railroad, is a part of the NYS Transportation Master Plan, and is also within the Federal Intermodal Corridor, making the project eligible for federal funding. In 2018, New York State funded \$19 million to CSX to make improvements to the DeWitt Rail Yard in order to allow for international container service, which will commence in September of 2019. By developing a functional CNYIP, 3Gi plans to take advantage of the economic opportunity presented by international container service and therefore provide numerous socioeconomic and environmental benefits to the Central New York region.

B. ECONOMIC INCENTIVES

3Gi, in business with Intransit Container, Inc., (ICI), will provide logistic services that match international import containers with exporters who need empty containers. Coordinating importers and exporters to take full advantage of round trip empty international containers is the primary business opportunity filled by 3Gi CNYIP and ICI Port of Worcester. Together, 3Gi and ICI fill a need for regional importers and exporters to send and receive a greater volume of goods from international markets in a more cost-effective and fuel-efficient manner. This business relationship will provide a streamlined alternative to shipping via truck, which is far more time and cost intensive.

C. FACILITY OPERATIONS

The CNYIP will be set up to provide management of incoming and outgoing cargo for the Dewitt Rail Yard, where there is none today. CSX is in the business of transporting cargo; they do not manage cargo once it reaches its destination. The inland port will store, organize, coordinate, distribute, and manage the cargo from the transporter to and from the manufacturer and the buyer. The establishment of an effective inland port will start with the development of an international container yard for CSX containers. The container yard will take in off-loaded international containers, store them in a yard, and mitigate the truck transport of the containers to their final destination. The container yard will also take in empty containers and coordinate their distribution to Central New York exporters for filling. Once they are loaded with product, the containers will be returned to the CNYIP for export via rail back to the PANYNJ for international distribution on container ships.

Future expansion of CNYIP is unknown at this time but could potentially include the development of on-site warehousing for the short-term aggregation of products and the infrastructure required to coordinate the exporting of those products. It could also include the laying of track inside the CNYIP owned property, enabling CSX to switch the rail cars into the 3Gi operated container yard and thereby allow for the control of export loading and the ability to aggregate large numbers of containers to be shipped on the same train.

D. ENVIRONMENTAL IMPACT

The implementation of a Central New York Inland Port will have a positive impact on the environment. Currently, CNY exporters have to transport their goods via truck (tractor trailer) down and through New York City to the PANYNJ. Not only is truck transport more expensive (greater than 5 times the cost of rail transport), but it is harmful to the environment due to excessive carbon emission from the trucks. Rail transport has significantly lower carbon emissions and therefore a smaller environmental impact.

Adjacent to the proposed site there are several NYSDEC freshwater wetlands and a FEMA 100-year floodplain area. The proposed project will avoid much of the jurisdictional wetland areas and only require a small impact for the

road extension from the container yard to Kirkville Road. The project will include properly sized stormwater mitigation basins to mitigate any effects to storm water runoff conditions resulting from the proposed development. A wetland delineation and determination report has been compiled and is included in Appendix C of this report.

E. TRAFFIC IMPACT

As it exists today, the main route for international truck traffic that is entering or exiting the CSX operated DeWitt Rail Yard is via North Central Avenue and Fremont Road. Beginning in September of 2019, CSX will use this existing route for all international cargo transportation by truck. The long-term plan for the CNYIP is to reroute this truck traffic through the 3Gi site onto Girden Road before accessing Kirkville Road. This will alleviate the potential traffic burden from the prospective increase in international container service, thus avoiding the two schools and residential neighborhood located along Fremont Road. The traffic improvement proposed by 3Gi is a great enhancement to the existing condition. The temporary access road (Temp Road 1) proposed in Phase 1 will access the international container yard from Fremont Road. The first permanent option for site access from Girden Road (Perm Road 1) will be via an existing easement directly west of the site. The second permanent option for site access from Girden Road (Perm Road 2) will be to the northwest across the northern part of the wetland area. Perm Road 2 will require coordination with NYS in order to obtain funding, but will have a much smaller impact on the adjacent wetlands.

The intersection of Girden Road and Kirkville Road is only a three quarter-mile drive to Interstate 481. The connection to the NYS Thruway (Interstate 90) is only two miles north of this point and is only another 6 miles from Interstate 81. Therefore, from the future road improvement on Girden Road, international cargo will have a direct connection from the CSX railroad to the entirety of New York State, the northeastern United States, and eastern Canada. To assess the potential impact that the trip generation from the full build-out of the project will have on Girden Road and Kirkville Road, a traffic impact study has been prepared for this project and is included in Appendix D of this report.

F. PROJECT BENEFITS

The CNYIP has many potential socio-economic and environmental benefits to the Central New York Region. The greatest positive outcome is the prospective economic growth that would accompany a reduction in shipping costs associated with a shift from importing and exporting by truck to rail. Many businesses within the CNY region have indicated that transportation costs are a significant cost of sales and consideration in their growth potential as well as retaining their business in NYS. Additionally, the long-term shift to importing and exporting by rail will result in a reduction in emissions of greenhouse gases through a decrease in tractor trailers on NYS roadways.

Re: 3Gi – Central New York Inland Port Project

Dear Mr. Capriotti,

Enclosed for your review is a complete set of plans and documents for a zone change request and site plan review for the 3Gi property north of the CSX rail yard. We look forward to presenting to the Town of Manlius Planning Board meeting on January 6th, 2020. Below are responses to the submission comment letter from Miller Engineers dated September 11th, 2019.

1) *The site is currently zoned Restricted Agricultural (RA) and the proposed warehousing and storage container parking is not an allowable use.*

This submission contains the necessary application and materials to apply for a zone change.

2) *Submission of site plan and supporting data is required should a zone change be requested... and shall include at a minimum the following information...*

a) *A properly certified survey of the property...*

A certified survey of the subject parcels is included in this submittal and includes site features and existing topography. Additionally, zone change maps of the properties are also included.

b) *The site plan showing proposed building locations and land use areas.*

A site plan of the proposed container pooling operation is included in this submittal.

c) *Traffic circulation, parking and loading spaces, and pedestrian walks.*

The proposed access driveway off of Fremont Road is included on the site plan. There are no associated parking spaces or pedestrian facilities required for the current proposal.

d) *Landscaping plans, including site grading and landscape design.*

A landscaping and grading plan is included in this submittal.

e) *Preliminary architectural drawings for buildings...*

For the current proposal, only a small prefabricated modular office building is proposed. Colors and materials have yet to be determined. Some examples of what this office building could look like are shown on the following page. Warehouse buildings are included in the master development plan for the property and are shown only as an example of potential future proposals.

Figures 1&2: Examples of prefabricated modular office buildings.

f) *Preliminary engineering plans, including street improvements, drainage systems, and public utility extensions.*

All proposed improvements have been included in the site plan. The only utilities proposed at this time are several pole-mounted site lights. Placeholders for stormwater management are shown on the site plan to mitigate future impervious area on the site.

3) *For more specific detailed information, the applicant should be directed to reference the Town Zoning Code, procedures for zone change and site plan submission requirements.*

We have reviewed section §155-28 ‘Site Plan Review’ in the Town of Manlius zoning code, and believe that we have addressed all of the applicable requirements.

Any and all future comments will be addressed accordingly. If you have any questions or if you need any other additional information, please contact us.

Respectfully submitted,

The following resolution was moved, seconded and unanimously adopted:

WHEREAS, application has been made to the Town Board of the Town of Manlius for a Special Permit to allow the applicant to construct a cellular radiotelephone facility with a 120' tower and 14' x 20' radio equipment shelter on certain premises located in a Restrict Agricultural District, which premises are described as follows:

ALL THAT TRACT OR PARCEL OF LAND situate in the Town of Manlius, County of Onondaga, State of New York, being more particularly described as follows:

BEGINNING at a point, which point of beginning is the following courses and distances from the intersection of the center line of East Taft Road with the center line of Fremont Road; North $87^{\circ} 00' 00''$ east along the center line of East Taft Road a distance of 2,353.2 feet to a point; thence south $2^{\circ} 29' 00''$ east a distance of 274.75 feet to a point; thence north $87^{\circ} 00' 00''$ east a distance of 25.30 feet to the point of beginning; thence south $3^{\circ} 00' 00''$ east a distance of 200 feet to a point; thence south $87^{\circ} 00' 00''$ west a distance of 200 feet to a point; thence north $3^{\circ} 00' 00''$ west a distance of 200 feet to a point; thence north $87^{\circ} 00' 00''$ east a distance of 200 feet to the point of beginning.

TOGETHER WITH a right of way running southerly from East Taft Road to the above described parcel, such right of way being more particularly described as follows:

BEGINNING at a point in the center line of East Taft Road north $87^{\circ} 00' 00''$ east along said center line a distance of 2,353.2 feet; thence south $2^{\circ} 29' 00''$ east a distance of 274.75 feet to a point in the northerly boundary of the above described parcel; thence south $87^{\circ} 00' 00''$ west along said northerly boundary of the above described parcel a distance of 30 feet to a point; thence north $2^{\circ} 29' 00''$ west a distance of 274.75 feet to a

point in the center line of East Taft Road; thence north 87° 00' 00" east along the center line of East Taft Road a distance of 30 feet to the point of beginning.

The above described premises are more particularly set forth on a survey map entitled "SURVEY MAP OF PART OF LOT 6 TOWN OF MANLIUS ONONDAGA COUNTY, NEW YORK" dated November 29, 1993, revised November 30, 1993, and further revised January 7, 1994, prepared by Robert M. Burleigh, LLS 049727, a copy of which map is attached to this legal description, incorporated herein and made a part hereof.

Being a portion of premises conveyed by Frances C. Myers, surviving spouse of Robert F. Myers, to Dale Marie Snyder and Kathleen J. Snyder by Warranty Deed dated December 28, 1984 and recorded in the Onondaga County Clerk's Office on January 16, 1985 in Book 3149 of Deeds at page 21; and

WHEREAS, the Planning Board of the Town of Manlius has reviewed the application and recommends to the Town Board the granting of the requested Special Permit for the parcel of land hereinbefore described; and

WHEREAS, the Onondaga County Planning Board recommends that the special permit be approved with the following conditions;

- That the location of access drive onto East Taft Road meet the Onondaga County Department of Transportation specifications for a commercial drive.
- That a distance of 40' from the centerline of East Taft Road be reserved for future county highway development.

WHEREAS, applicant, as lessee and not the owner of the above described parcel is unable to comply with the condition regarding the reservation of land for future county highway development; and

WHEREAS, the Town Board of the Town of Manlius held a Public Hearing on the 11th day of May, 1994, at 7:45 p.m., at which all persons in interest and citizens desiring to be heard had an opportunity to be heard; and

WHEREAS, all requirements of the State Environmental Quality Review Act have been complied with; and

WHEREAS, in the opinion of the members of the Town Board, the granting of the Special Permit requested by the applicant herein will not adversely affect the health, safety, morals, and/or the general welfare of the public; and the Town Board members may impose additional standards for the Special Permit to preserve the general character of the neighborhood in which such special use is to be placed;

NOW, THEREFORE, be it

RESOLVED, that it is the finding of the Town Board of the Town of Manlius that:

1. The use possesses characteristics that will blend desirably with the neighboring properties and will secure the objectives of the Zoning Ordinance of the Town of Manlius.

2. The location, size of the use and structure, nature and intensity of the operations involved, size of the site in relation to it, and the location of the site with respect to the streets giving access to it are such that it will be in harmony with the orderly development of the district.

3. The location, nature, and height of the buildings, walls and fences will not discourage the appropriate development and use of adjacent land and buildings or impair their value.

4. The use does not conflict with any master plan or part thereof.

5. The proposal will not significantly impair the safety of the general public nor unreasonably increase traffic congestion.

6. The proposal will not significantly increase the possibility of nuisance or noise from the site.

7. The proposal provides for adequate parking in accordance with the Zoning Ordinance of the Town of Manlius; and be it further

RESOLVED, that the applicant be, and hereby is, granted a Special Permit pursuant to the provisions of Chapter 30, Article IV, Section 30.460, of the Town of Manlius Municipal Code for the purpose of constructing a cellular radiotelephone facility with a 120' tower and 14' x 20' radio equipment shelter on the premises

located in the Town of Manlius heretofore described; and be it further

RESOLVED, that the Special Permit shall be issued by the Town Clerk upon the agreement in writing by the applicant to the conditions imposed by the Special Permit.

SPECIAL PERMIT

Pursuant to a Resolution of the Town Board of the Town of Manlius on the Application of SYRACUSE TELEPHONE COMPANY, which Resolution was passed at a regular meeting of the Town Board of the Town of Manlius, held on the 11th day of May, 1994, permission is hereby granted to applicant, effective upon the mutual execution of this Permit, to construct a cellular radiotelephone facility with a 120' tower and 14' x 20' radio equipment shelter to be located on certain premises in the Town of Manlius, owned by applicant, which premises are more particularly described as follows:

ALL THAT TRACT OR PARCEL OF LAND situate in the Town of Manlius, County of Onondaga, State of New York, being more particularly described as follows:

BEGINNING at a point, which point of beginning is the following courses and distances from the intersection of the center line of East Taft Road with the center line of Fremont Road; North 87° 00' 00" east along the center line of East Taft Road a distance of 2,353.2 feet to a point; thence south 2° 29' 00" east a distance of 274.75 feet to a point; thence north 87° 00' 00" east a distance of 25.30 feet to the point of beginning; thence south 3° 00' 00" east a distance of 200 feet to a point; thence south 87° 00' 00" west a distance of 200 feet to a point; thence north 3° 00' 00" west a distance of 200 feet to a point; thence north 87° 00' 00" east a distance of 200 feet to the point of beginning.

TOGETHER WITH a right of way running southerly from East Taft Road to the above described parcel, such right of way being more particularly described as follows:

BEGINNING at a point in the center line of East Taft Road north 87° 00' 00" east along said center line a distance of 2,353.2 feet; thence south 2° 29' 00" east a distance of 274.75 feet to a point in the northerly boundary of the above described parcel; thence south 87° 00' 00" west along said northerly boundary of the above described parcel a distance of 30 feet to a point; thence north 2° 29' 00" west a distance of 274.75 feet to a point in the center line of East Taft Road; thence north 87° 00' 00" east along the center line of East Taft Road a distance of 30 feet to the point of beginning.

The above described premises are more particularly set forth on a survey map entitled "SURVEY MAP OF PART OF LOT 6 TOWN OF MANLIUS ONONDAGA COUNTY, NEW YORK" dated November 29, 1993, revised November 30, 1993, and further revised January 7, 1994, prepared by Robert M. Burleigh, LLS 049727, a copy of which map is attached to this legal description, incorporated herein and made a part hereof.

Being a portion of premises conveyed by Frances C. Myers, surviving spouse of Robert F. Myers, to Dale Marie Snyder and Kathleen J. Snyder by Warranty Deed dated December 28, 1984 and recorded in the Onondaga County Clerk's Office on January 16, 1985 in Book 3149 of Deeds at page 21; and

This Permit will continue in force until terminated by the Town Board for breach of one or more of the conditions pursuant to which it is granted, and the implementation thereof will be in accordance with the following conditions:

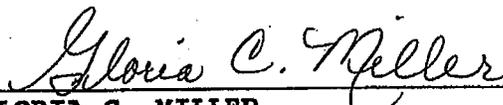

1. This Special Permit and the uses allowed pursuant thereto shall expire three ^{ten (10)} ~~(8)~~ years from the date of the mutual execution of the Permit.

2. This Special Permit is expressly conditioned upon the applicant meeting the specifications of the Onondaga County Department of Transportation for a commercial drive in regard to the location of the access drive onto East Taft Road.

3. This Special Permit and the privileges granted hereunder shall be personal to the applicant herein and shall be non-transferable to any other party.

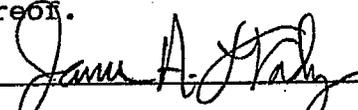

4. If the special use ceases for more than six (6) months for any reason, the Permit shall expire.

The applicant, by the acceptance of this Special Permit, agrees to all of the above terms and conditions; and in the event he shall fail for any reason to perform any of the said terms and conditions on his part to be performed, said permit shall be revoked.

GLORIA C. MILLER
Town Clerk of the Town of Manlius
Onondaga County, New York

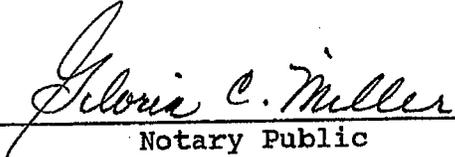

The undersigned, SYRACUSE TELEPHONE COMPANY, does hereby accept the foregoing Special Permit and agrees to perform all of the terms and conditions thereof.

Containing 0.057+/- Acres/2500 square feet of land.

This parcel subject to all easements and restrictions of record.

This Permit is issued subject to the following conditions:

1. That Applicant submit a plan certified by a registered professional engineer that the flood-proofing measures to non-residential structures are consistent with the flood protection elevation and associated flood factors for the particular area and the design or plan conforms and complies with the pertinent requirements of the Code of the Town of Manlius, Section 72.9.

2. That erection of a 150 foot cellular communication tower with PCS wireless communications equipment will be constructed in a manner consistent with the need to minimize flood damage, including specifically, but without limitation, that said structure shall have either the lowest floor, including basement, elevated to at least one foot above the 100-year flood level, or, together with attendant utility and sanitary facilities, be flood-proofed so that below the 100-year flood level the structure is watertight with walls substantially impermeable to the passage of water, and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered architect shall certify that the standards contained in this paragraph are satisfied.

3. The tower and PCS wireless communications equipment shall be anchored to prevent flotation, collapse, or lateral movement of the structure.

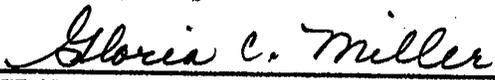

4. The tower and PCS wireless communications equipment shall be constructed with materials and utility equipment resistant to flood damage.

5. The tower and PCS wireless communications equipment shall be constructed using methods and practices that minimize flood damage.

6. That adequate drainage will be provided to reduce exposure to flood hazard.

7. The applicant shall obtain and comply with all terms of the Special Permit.

The applicant, Omnipoint Communications, Inc., by the acceptance of this Development Permit, agrees to all of the terms and conditions of the Permit, and in the event it shall fail for any reason to perform any of the said terms and conditions on its part to be performed, said Permit shall be revoked. This Permit shall not represent a waiver of any other requirement pursuant to any law, ordinance, regulation, or legally enforceable condition.

; and

WHEREAS, the Planning Board of the Town of Manlius has reviewed the application and recommends to the Town Board the granting of the requested Special Permit for the parcel of land hereinbefore described subject to the following conditions:

- a) The site plan must show the fall zone of the proposed tower;
- b) The site plan must show the residences further to the north;
- c) The Lamb residence on Salt Springs Road must be notified of the cell tower

proposal; and

- d) The fencing shall be PVC black coated.

WHEREAS, the applicant has submitted a site plan dated May 25, 1999 showing compliance with the site plan concerns raised by the Planning Board; and

WHEREAS, the Town Board of the Town of Manlius held a Public Hearing on the 26th day of May, 1999, at 7:45 p.m., at which all persons in interest and citizens desiring to be heard had an opportunity to be heard; and

WHEREAS, the Town Board of the Town of Manlius hereby declares itself to be Lead Agency for purposes of the environmental review of this application, determines this to be an unlisted action, and makes a negative declaration; and

WHEREAS, all requirements of the State Environmental Quality Review Act have been complied with; and

WHEREAS, in the opinion of the members of the Town Board, the granting of the Special Permit requested by the applicant herein will not adversely affect the health, safety, morals, and/or the general welfare of the public; and the Town Board members may impose additional standards for the Special Permit to preserve the general character of the neighborhood in which such special use is to be placed;

NOW, THEREFORE, be it

RESOLVED, that it is the finding of the Town Board of the Town of Manlius that:

1. The use possesses characteristics that will blend desirably with the neighboring properties and will secure the objectives of the Zoning Ordinance of the Town of Manlius.

2. The location, size of the use and structure, nature and intensity of the operations involved, size of the site in relation to it, and the location of the site with respect to the

streets giving access to it are such that it will be in harmony with the orderly development of the district.

3. The tower, once constructed, will generate only one to two vehicle trips to the site per month for maintenance and inspection.

4. The tower will not create any significant noise.

5. The tower capacity to allow for co-location reduces the need for additional towers in the area.

6. Access to the site will be minimized by a 6 foot high chain link fence encircling the tower and a gate preventing access to the fenced area.

7. The site is located across from an active quarry and a significant distance from any homes.

8. The tower will be surrounded and screened by existing vegetation.

9. The location, nature, and height of the buildings, walls and fences will not discourage the appropriate development and use of adjacent land and buildings or impair their value.

10. The use does not conflict with any master plan or part thereof.

11. The proposal will not significantly impair the safety of the general public nor unreasonably increase traffic congestion.

12. The proposal will not significantly increase the possibility of nuisance or noise from the site.

13. The tower will be unmanned and therefore, the proposal provides for adequate parking in accordance with the Zoning Ordinance of the Town of Manlius.

14. The applicant has demonstrated that no existing or approved tower can accommodate its coverage needs.

and, be it further

RESOLVED, that the applicant be, and hereby is, granted a Special Permit pursuant to the provisions of Chapter 155, Article IV, Section 155-26, of the Code of the Town of Manlius for the purpose of constructing and operating a cellular telephone transmitting facility on the premises located in the Town of Manlius heretofore described; and be it further

RESOLVED, that the Special Permit shall be issued by the Town Clerk upon the agreement in writing by the applicant to the conditions imposed by the Special Permit.

1. This Special Permit and the uses allowed pursuant thereto shall expire five (5) years from the date of the mutual execution of the Permit, provided, however, that if the applicant has complied with all material aspects of the Permit, then the Town shall renew the Permit for additional five (5) year periods as determined by the Town.

2. This Special Permit and the privileges granted hereunder shall be personal to the applicant herein and shall be non-transferrable to any other party, without prior approval from the Town, which approval shall not be unreasonable withheld.

3. The Applicant shall submit to the Town a no-hazard determination as required by the FAA.

4. The Applicant shall maintain a current FCC license for the operation of the proposed Tower.

5. The Tower shall be located in accordance with the plans submitted by applicant and designed by Constich Engineering, revised date, May 25, 1999.

6. The applicant shall negotiate in good faith for and allow shared use of the proposed Tower by others for reasonable consideration upon reasonable conditions.

7. The applicant shall impose no more than a reasonable charge for shared use, based upon generally accepted accounting principles. The charge may include, but is not limited to, a pro rata share of the cost of site selection, planning, project administration, land costs (including taxes), site design, construction and maintenance financing, return on equity, depreciation, and all of the costs of adapting the Tower or equipment to reasonably accommodate a shared user over a reasonable lease term.

RE: Special Use Permit
David Corbett
7888 Saintsville Rd.

Tax ID #: 070-03-43.0

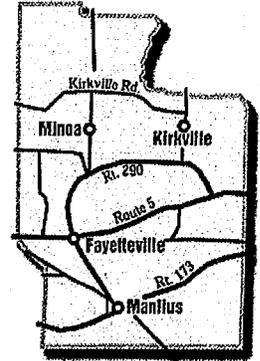

Town Board:

I visited the site relating to the Special Use Permit for 7888 Saintsville Road regarding the property belonging to David Corbett. The property has had no renovations since the last permit back in 2012. There have been no problems with the property or with any of the neighbors. After speaking with David Corbett, I recommend the Town Board approve the Special Use Permit.

Sincerely;

Randy Capriotti

WHEREAS, application has been made to the Town Board of the Town of Manlius for a Special Permit for the purpose of permitting the construction of a garage/pole barn for cold storage in an Industrial District;

WHEREAS, the Planning Board of the Town of Manlius has reviewed the application and on September 10, 2012 recommended to the Town Board the granting of the requested Special Permit with the following conditions:

- a. The proposed garage/pole barn match the existing garage/pole barn in color and material;
- b. Any additional garage/pole barn set forth on the site plan submitted by the applicant be located as set forth on the site plan and match the the existing garage/pole barn in color and material;
- c. The garage/pole barn shall be for the personal use of the property owner and will not be leased or used for commercial purposes;

WHEREAS, The Town Board of the Town of Manlius held a Public Hearing on the 12th day of September, 2012, at 7:05pm, which all persons in interest and citizens desiring to be heard had an opportunity to be heard; and there was no public comment against the Project; and

WHEREAS, the Board has declared itself the lead agency on this unlisted action under SEQR and has issued a negative declaration under SEQR for the following reasons, which are set forth in more detail in the Short Environmental Assessment Form considered by the Board at its September 12, 2012 meeting: the intended use of the property fits within the zoning for the property with a special permit; the character of the property line to address any concerns by neighbors; the proposed visual and aesthetic impacts will be negligible based on the information provided by the applicant;

WHEREAS, the proposed Special Use is allowed under Town Code Section 155-17 with a special permit because it is an accessory use to a residential property;

WHEREAS, in the opinion of the members of the Town Board, the granting of said Special Permit requested by applicant will not adversely affect the health, safety, morals, and/or the general welfare of the public; and

WHEREAS, the Town Board may impose additional standards upon the Special Permit to preserve the general character of the neighborhood in which the proposed special use is to be placed;

WHEREAS, all other requirements of Law have been complied with;

NOW, THEREFORE, BE IT

RESOLVED, that the Town Board of the Town of Manlius finds as follows:

1. The use possesses characteristics that will blend desirably with the neighboring properties and will secure the objectives of the Zoning Ordinance of the

Town of Manlius because the neighboring properties are vacant pasture land currently owned by a family member of the applicant.

2. The location, size of the use of and structure, nature and intensity of the operations involved, size of the site in relation to it, and the location of the site with respect to the streets giving access to it are such that it will be in harmony with the orderly development of the district.

3. The location, nature and height of the buildings, walls and fences will not discourage the appropriate development and use of adjacent land and buildings or impair their value.

4. The use does not conflict with any master plan or part thereof.

5. The proposal will not significantly impair the safety of the general public nor unreasonably increase traffic congestion.

6. The proposal will not significantly increase the possibility of nuisance or noise from the site.

and be it further
