DATED: _____, 2023

Allison Weber
Town Clerk of the Town of Manlius
Onondaga County, New York

5912 North Burdick Street, E. Syracuse, NY 13057 – PUBLIC HEARING - Zone Change Recommendation to Town Board – RA and Commercial to R3 Megnin Farms – Route 5 at East Genesee Street and Strawmount Trail - Tax Map #'s 082.2-01-02.0 and 082.2-01-03.0

This is a recommendation to the Town Board of Manlius from referral of the Town Board relative to the request for zone change made by the applicant for the premises from RA (primarily) and CA (Small portion) to R-3.

This Board held an informational public hearing on December 12, 2022, intending to solicit the input of the surrounding neighbors and other residents on the issue of a potential zone change. The Board also previously heard for the Village of Chittenango Mayor relative to sewer plant capacity affecting this project. The Board further received 36 letters and emails in connection with the project and received a petition signed by 138 residents. The nature of all such comments are fully set forth in the public record/minutes of the meeting and are incorporated herein by reference.

This Board hereby determines that a Zone change is not warranted for these affected parcels, and therefore recommends that the Town Board not re-zone the properties as requested by the applicant, for the following reasons as set forth below:

1. The Housing that would be permitted in the R-3 zoning designation is not compatible with the adjacent residential housing which is nearly fully built out with single family housing of an upscale nature, with well-sized lots and yards and significant buffering between properties;

- an R-3 Zoning designation would allow for a much greater density of housing than is allowed in the current zoning designation of RA;

-the housing of town house and duplex character in close proximity to the single-family homes is not desirable for this area;

2. Absent compelling reasons that would benefit the Town or community, the purchasers of the single- family residential properties in the current Mengin Farms should be able to rely upon the zoning designation of its neighboring parcels to determine what type of development may be present near their residential property. A change of a significant nature that would ensue upon a zone change, which may be incompatible with the reasonable expectations of the neighbors, should not be entertained.

3. The significant drainage and storm water issues that have been presented cannot be ignored at this juncture in permitting or denying future/more dense development that would occur through a zone change.

4. The Town Board is in the midst of a complete Comprehensive Plan for the Town and it would be imprudent to recommend a zone change for this single area until a full and comprehensive review of the various zoning districts, in light of the Comprehensive Plan are completed.

5. The issue of how sewer capacity affects this and future projects must be better reviewed, explored and understood before a zone change that increases density, is allowed.

6. There has been nothing presented, in any event, to suggest that this property would not be reasonably developable under its current zoning designation(s).

7. Traffic onto Strawmount that would result from more density should also be considered.
