Mr. Fredenburg stated he would like to build a 40'X56' storage shed to various items.

Chairman Kelly proceeded with the applicant through the five (5) criteria questions:

- 1) Whether the benefit sought by the Applicant can be achieved by some other feasible method? Mr. Fredenburg answered No
- 2) Whether the Variance will result in an undesirable change in the character of the neighborhood or to nearby properties? Mr. Fredenburg answered, it will not change the character of the neighborhood.
- 3) Whether the requested Variance is substantial? Mr. Fredenburg answered yes, within reason.
- 4) As to whether the Variance will have an adverse effect on physical or environmental conditions? Mr. Fredenburg answered no, it will not have an adverse effect.
- 5) Whether the alleged difficulty was self-created? Mr. Fredenburg answered no, the request is because of the lay of the land.

The ZBA, after taking into consideration the above five factors, finds that:

 X The benefit to the application **DOES** outweigh the Detriment to the Neighborhood or Community.

 The benefit to the applicant **DOES NOT** outweigh the Detriment to the Neighborhood or Community and therefore the variance requested is denied.

The ZBA further finds that a variance for the front yard of 7' and height of 22' is the minimum variance that should be granted in order to preserve and protect the character of the neighborhood and the health, safety and welfare of the community.

The ZBA further **GRANTS** the variance as requested with the following conditions:

SEQRA Review

Chairman Kelly determined the proposed project and action contemplated is comprised of a Type II Action pursuant to the New York State Environmental Quality Review Act, and as such no further review was required.

Board Action

Chairman Kelly opened the public hearing at 6:46 PM.

Mr. Verbeck stated they are requesting a height variance of 6' for the replacement barn they would like to build.

Chairman Kelly proceeded with the applicant through the five (5) criteria questions:

- 1) Whether the benefit sought by the Applicant can be achieved by some other feasible method? Mr. Verbeck answered no, they need the storage because they do not have any in the house.
- 2) Whether the Variance will result in an undesirable change in the character of the neighborhood or to nearby properties? Mr. Verbeck answered no they are replacing the old barn that snow took down a while back.
- 3) Whether the requested Variance is substantial? Mr. Verbeck answered no
- 4) As to whether the Variance will have an adverse effect on physical or environmental conditions? Mr. Verbeck answered no, the new barn will look much nicer than the old one.
- 5) Whether the alleged difficulty was self-created? Mr. Verbeck answered no

ZONING BOARD

Terri Yackel subdivision located at 7873 Myers Road. She is looking for an area variance regarding the road frontage for the current zoning. The land is currently zoned RA-restricted agricultural. The frontage under current zoning is 200'. Prior to the zoning frontages changing back in 2001, the frontage was 100' which is consistent with a good portion of lots on that street.

Ms. Yackel has 163' of frontage on the property. The current code is 200'. She is looking for 37' relief from the current standard to build a house on the subdivision.

2. Whether the Variance will result in an undesirable change in the character of the neighborhood? **NO.**
3. Whether the requested variance is substantial? **NO.**
4. Whether the Variance will have an adverse effect on physical or environmental conditions? **NO.**
